Dreer's Quarterly Wholesale Price List

APRIL—JUNE, 1902

SEED DEPARTMENT.—This is in charge of trained experts, and whether your wants may be in Flower, Vegetable, or Agricultural seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT.—Our stock of decorative plants, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well grown, and will compare favorably with stock distributed by us in previous seasons. Whenever possible, we solicit a personal inspection of our stock.

LOW EXPRESS RATES ON PLANTS, BULBS AND SEEDS. We are shipping by express lines, to all parts of the country, goods, packed in closed boxes, at a reduction of 20 per cent. from regular rates of merchandise. Prepaid packages of seeds, plants and bulbs are carried to California and all distant points at the rate of 8 cents per pound.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** of Plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary, and **when sent in any other way, are solely at purchaser's risk.**

PRICES.—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts. All orders from the trade will be priced according to this list. Articles offered in our Retail Catalogue and not offered in this list will be supplied at retail prices less the following discounts, viz: Vegetable and Flower Seeds, in packets, Bulbs and Plants, 33⅓%; Small Tools and Insecticides, 10%; Lawn Mowers, 5%.

TERMS OF BUSINESS.—Unknown correspondents desiring to open an account will please furnish reference to parties in the trade with whom they have had credit relations, otherwise cash must accompany order. To parties of approved credit all bills will be due and payable **Ninety (90) days** after date of invoice.

Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

All goods are offered subject to being unsold on receipt of order, and we reserve the right to advance prices without notice.

No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

In filling out your order always give **Shipping Directions**, and write **Name and Address** **Distinctly** on each and every order.

NON-WARRANTY.—We wish it to be distinctly understood that although we continue to take all possible pains to supply only New, Genuine and Unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

An Invitation.

We cordially invite you to visit our Greenhouses and Nurseries at Riverton, N. J., one of the most interesting commercial places in the world. Riverton, as can be seen by the map, is situated on the New Jersey side of the river Delaware, nearly opposite the city of Philadelphia, from which it can be reached by frequent trains in 30 minutes and by boat in 45 minutes.

CHINESE AZALEA.

AZALEAS for EASTER.

We are carrying in stock an immense quantity of Azaleas for Easter forcing; the plants are in good condition and finely set with buds; the varieties we offer are only the best commercial sorts, but selection of same at this date must be left to us.

Mme. Van der Cruysen in sizes from 10 to 15 inches in diameter is very scarce this season, but we can still include 10 per cent. of this variety.

As these plants can be more safely shipped when in bud we wish to impress the importance of immediate orders. We will not be responsible for injuries arising from late shipments when the buds are developed.

Bougainvillea.

	Per doz.	Per 100
Glabra Sanderiana. 3-inch pots . . .	\$1 25	\$10 00

New Flowering Begonia, "Coral."

In Begonia "Coral" we have a perfect Gem; a shrubby variety that flowers the year round. In habit of growth and foliage it closely resembles the old Begonia Fuchsioides, which is now rarely seen, but its flowers are of much larger size and of a beautiful coral red color; a real acquisition. Ready April 1st. 25 cents each.

New Begonia "Bronze de Nancy."

An interesting cross between Begonia Dregei and Begonia Olbia, closely resembling in general form of habit and foliage the latter variety; but of freer and more robust growth. Its flowers are white, borne on drooping trusses and contrast nicely with the bronze-green foliage. 25 cents each. Ready May 1st.

Tuberous-Rooted Begonias.

The strain of Tuberous-Rooted Begonias we offer is too well known to require lengthy description; suffice it to say that we have used the same care this as in previous seasons, to select only such strains that are certain to give satisfactory results. The bulbs are of good size, well ripened, and first-class in every respect.

The price is as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, to sell over the counter in bloom, will find many of the *cheap indifferent strains now offered dear at any price*. We offer but one quality, and that is the best.

Single Varieties in Separate Colors. Crimson, white, rose, yellow and orange. 40 cts. per doz.; \$3.00 per 100; \$25.00 per 1000.

Single Varieties in Choice Mixture. 35 cts. per doz.; \$2.50 per 100; \$22.00 per 1000.

Double Varieties in Separate Colors. Scarlet, rose, white and yellow. 65 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.

Double Varieties in Choice Mixture. 50 cts. per doz.; \$4.00 per 100; \$35.00 per 1000.

Frilled Tuberous-Rooted Begonia.

A most unique form, with very large single flowers which are entirely distinct from anything heretofore offered, the petals being wavy and beautifully frilled on the edges, similar to the newer forms of Petunias. A decided acquisition. Strong bulbs, 25 cents each; \$2.50 per dozen.

Tuberous-Rooted Begonia, "Duke Zeppelin."

A most useful and attractive variety; a favorite for bedding, possessing the great advantage over other tuberous-rooted Begonias of delighting in full sunshine. It is of dwarf habit, growing from 6 to 8 inches high, throwing up well above the foliage numberless stems bearing full, double, dazzling scarlet flowers, giving the whole plant a brightness, grace and elegance difficult to describe. Strong bulbs, 20 cents each; \$2.00 per dozen; \$15.00 per 100.

New Tuberous-Rooted Begonia, "Lafayette."

A companion to Begonia "Duke Zeppelin" in every way, except in color, which in this variety is of brilliant crimson scarlet. Like "Duke Zeppelin" it makes an excellent bedding plant, luxuriating in full sunlight provided it is liberally supplied with water. 25 cts. each; \$2.50 per dozen.

NEW FRILLED BEGONIAS.

The Lorraine Begonias.

Gloire de Lorraine, Light Pink Lorraine, Erecta Compacta Lorraine, and Caledonia.

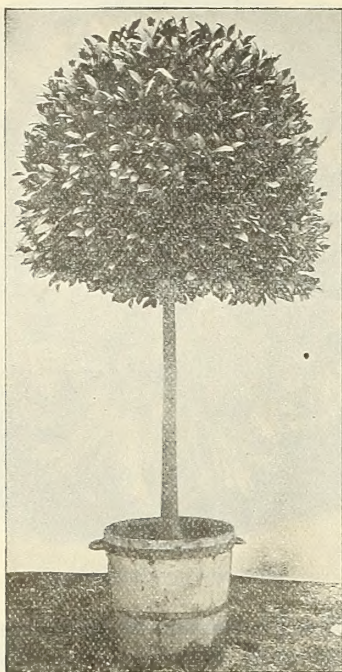

These beautiful Begonias are undoubtedly the best **Winter Flowering Pot Plants** we possess, especially so for the **Holiday Season**. The demand again this year has been far in excess of the supplies, but we are now prepared to book orders for **June and July delivery at \$2.00 per doz.; \$15.00 per 100; or \$140.00 per 1000** in thrifty young plants which will start off in a vigorous growth at once and which can readily be grown into 6 or 7-inch pots for next winter's use.

There is absolutely no difficulty in growing this plant between June and February; no special skill is required and no special facilities need be prepared. You will have no difficulty whatever if you secure good thrifty young stock such as we are prepared to supply in June and July, and you will find same a paying investment.

We especially call attention to **Erecta Compacta** and **Light Pink Lorraine**, both of which are superior to the type, being better growers, better sellers, more showy and holding their flowers better than the original. **Caledonia** we cannot recommend except as a novelty in color, it being white.

FANCY-LEAVED CALADIUM.

Fancy Caladiums.

Fancy leaved in 25 choice named varieties. (See retail cata-
logue for description.) Dormant bulbs will be sent as long as
they last, after which growing plants will be furnished in 2¼-in.
pots. \$1.25 per doz.; \$10.00 per 100.

Choice mixture, \$1.00 per dozen; \$8.00 per 100.

Caladium Argyrites.

A most beautiful dwarf-growing variety with miniature dark-
green foliage which is freely mottled with white. It can be used
to great advantage in the filling of Jardinieres and Fern dishes,
or in connection with choice cut flowers. \$1.50 per doz.;
\$12.00 per 100.

Camellia Japonica.

A fine lot of bushy, well-branched plants in 12 distinct varieties.

Clematis Indivisa.

This is one of the most desirable climbers that we are acquainted
with for growing in a cool greenhouse. Its flowers, which are
produced in March and April, are pure white, and from 1½ to 2
inches in diameter, in panicles frequently 2 feet long. A well
established plant in early spring is simply one mass of bloom; the
flowers can be used to good advantage in a cut state. The plant
is evergreen and at all times attractive. 75 cents each.

CANNAS

SEVEN CHOICE NEW VARIETIES FOR 1902

The standard varieties of Cannas have now reached such a high point of perfection that a new variety to prove of value must be of a very high class. We annually try many new sorts, and the seven varieties here offered were all that we felt justified to select from 58 high-priced varieties which we had brought together from introducers of new Cannas, both in this country and in Europe, and which were carefully tested in our trial grounds the past summer. All of them will be found to have such points of merit that will make them desirable additions to any collection.

Inspector Ehemann. A medium sized but well formed flower, with broad round petals of an intense glowing scarlet, in good sized trusses; massive deep green foliage. 30 cts. each; \$3.00 per doz.

Governor Von Zimmerer. A remarkably free-flowering variety with large trusses of medium sized flowers, which are of an intense rich orange scarlet, pleasing and effective; foliage bronzy purple. 4 feet. 30 cts. each; \$3.00 per doz.

Jean Tissot. A fine rich deep vermilion, with bright orange-scarlet shadings; flowers of good size and produced on large heavy trusses; a strong free grower, with large massive green foliage. 5 feet. 30 cts. each; \$3.00 per doz.

Miss Berthine Brunner. A pretty pure yellow, with few minute spots of orange scarlet in the petals; flowers produced in large open panicles well above the foliage. 4½ to 5 feet. 35 cts. each; \$4.00 per doz.

Paul Grotz. Deep satiny vermilion flowers, of good size and neat open form, and produced with remarkable freedom; neat habit, foliage bronzy green; 5 feet; a perfect gem as a bedder. 50 cts. each; \$5.00 per doz.

Professor Hugo de Vries. Entirely distinct from all others in color, and a most desirable acquisition; the flowers, which are large, are of a rosy crimson color with a peculiar satiny sheen; deep green foliage; 3 feet. 60 cts. each; \$6.00 per doz.

Rubin. Flowers not large, but of such an intensely rich glowing carmine, which, combined with its dark green foliage, makes it a desirable bedder; 4 feet. 20 cts. each; \$2.25 per doz.

One each of the collection of seven varieties for \$2.25.

LARGE FLOWERING CANNAS.

Varieties of Special Merit.

Cinnabar. Cinnabar red, edged with distinct golden band; fine round flowers of great substance, held well above the foliage in large well-formed trusses; of good habit, and an early and free bloomer. 4½ feet. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Luray. A handsome and pleasing deep rosy pink, and undoubtedly one of the best of its color; flowers of good size, in large trusses well above the foliage. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Mrs. Kate Gray. The most robust growing Canna in our collection. The plants attain a height of 6 to 7 feet, with broad and massive foliage of a bright glossy green, similar to a Musa Ensete in size and substance, and forms a beautiful foil to the gigantic trusses of flowers, which are of a rich shade of orange scarlet, overlaid with gold, and measure from 6 to 7 inches across; individual petals often measuring 2 inches in width. The habit of the plant, size of truss and individual flower, together with its superb coloring, make this one of the most desirable Cannas in our collection. 25 cts. each; \$2.50 per doz.; \$20.00 per 100.

Mrs. George A. Strohlein. A variety of special merit, with extra large bright amaranth-red flowers which are raised well above the foliage in strong, heavy, many-flowered trusses. The plant grows about 6 feet high with large bronzy-purple foliage. It is entirely distinct from all others, possesses all the qualities of a good bedding variety, and will no doubt become one of our standard sorts. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Pennsylvania. One of the best of the Italian types with flowers 6½ inches in diameter, produced with remarkable freedom in many branched panicles and of an intense vermilion scarlet overlaid with an orange scarlet sheen. Rich massive deep green foliage, 6 to 7 feet. 40 cts. each; \$4.00 per doz.

President Meyer. A distinct and most desirable new variety, with broad bronzy foliage and very large flowers of a rich cherry carmine, which are produced in trusses of immense size—4 feet. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Souv. de Mme. Leonie Viennot. Dark green foliage and carmine flowers which are edged with golden yellow, flowers of large size in large trusses and very free. 4 feet. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Wilhelm Bofinger. Large broad massive foliage of a bright green, and rich scarlet flowers overlaid with glowing orange scarlet, a color that can be seen as far as the eye will carry; one of the brightest and most attractive colors we have seen. The plant is of strong habit, growing about 5 feet high, very free flowering, and a decided acquisition. 15 cts. each; \$1.50 per doz.; \$10.00 per 100.

We will furnish one each of the set of 8 varieties for \$1.50.

WILHELM BOFINGER.

Black Beauty.

The Finest of all Dark or Bronze Leaved Cannas.

In the large displays of Cannas at the Pan-American Exhibition, probably no variety attracted so much attention and proved so effective as Black Beauty. Its flowers are insignificant, but its foliage is of the richest bronzy purple shaded with black, the edges of the leaves being peculiarly crimped. We have a large stock, which enables us to offer it this season at a low price. \$1.50 per dozen; \$12.00 per 100; \$100.00 per 1000.

BABY POMPONE CHRYSANTHEMUM.

The Baby Pompone Chrysanthemum.

This is the smallest Pompone Chrysanthemum in cultivation, and displayed alongside of the large-flowered varieties the past fall at an exhibition of the Pennsylvania Horticultural Society it attracted much attention, not only on account of its diminutive size, but also on account of the perfect manner in which the flowers, which rarely measure over one-half inch, are formed; these flowers are of a clear lemon-yellow with closely quilled petals, and are produced in the greatest profusion.

15 cents each; \$1.00 per doz.; \$8.00 per 100.

Coleus Thyrsoideus.

(The Flowering Coleus.)

Entirely distinct from the varieties of Coleus heretofore known, all of which were grown for their beautifully colored and variegated foliage. This species, which comes from Central Africa, is not a foliage plant, its leaves being plain green; but it is a really grand flowering plant, and a Winter flowering plant at that, its season of flowering being from the Christmas Holidays until late in May.

The plant is of strong growth, attaining a height of 2 to 2 1/2 feet, and produces dense cylindrical spikes one inch in diameter and from 6 to 12 inches long, of beautiful rich blue flowers, which remind one of a spike of blue Larkspur. Blue flowers at all seasons of the year are not plentiful and always much sought after, especially so during the winter season. We consider this plant a perfect gem and a plant that has a great future as a flowering plant for the holidays, in which it may even rival the Lorraine Begonias. 30 cts. each; \$3.00 per doz.; \$25.00 per 100.

Coleus Dr. Ross or Brilliancy.

A giant-leaved form, with leaves frequently 9 to 10 inches long, of a bright carmine shading off to maroon, the margins of the leaves bordered with yellow and green, and having a rich, velvety lustre; the habit is strong and vigorous.

\$1.00 per dozen; \$8.00 per 100.

CACTUS DAHLIA, PROGENITOR.

Latest Novelties in Cactus Dahlias.

The collection here offered contains the latest novelties of European introduction; all have been thoroughly tested on our trial grounds the past summer, and we are certain will give entire satisfaction.

Arachne. Has peculiarly twisted and curled petals, forming a curious irregular-built flower, and on account of this unique form is well named, the word Arachne meaning spider. The petals are creamy white, edged with a broad band of crimson; the coloring, however, varies as much as the form, there rarely being two flowers alike. 35 cents each.

Britannia. Deep shaded salmon flesh; free and early on stout stiff stems.

Capstan. Soft brick-red, shaded apricot; remarkable for its free and early blooming.

Darkward. Dark rose, shading to a luminous carmine centre, of perfect form. 35 cents each.

Exquisite. Pure orange scarlet, with salmon shadings; of perfect form; very free.

Hunold. Light scarlet, with neatly quilled petals; very early. 35 cents.

Mary Service. Light orange scarlet, gradually shading to deep rose on the tips of petals; a fine flower.

Progenitor. Bright carmine, or crimson lake; the petals being furcated on the end like a Stag-Horn Fern, forming several points, each division having a fluted termination. 35 cts.

Primrose Dame. A beautiful light yellow, of fine form.

Radiance. Vivid orange scarlet, shaded yellow at base of petals; a handsome and distinct free-flowering variety.

Ranji. Rich deep maroon, almost black; a wonderful color.

Ruby. Deep vermilion centre, shading to a purplish tinge on the tips of the petals; a rich, showy color and perfect in form.

Standard Bearer. Rich bright fiery scarlet; free, early, and of fine form.

Uhland. Decided and distinct brownish red, of fine form.

Strong field roots, 25 cents each, except where noted; the set of 14 varieties for \$3.00.

Eight Choice New Cactus Dahlias.

(Introductions of 1901.)

Cinderella. Royal purple, deepening to a rich velvety shade.
Countess of Lonsdale. The freest flowering Cactus Dahlia in our collection, and perfect in form. Color an exquisite shade of rich salmon, with just a suspicion of apricot at the base of the petals. Towards the tips the color deepens gradually to the softest carmine pink.

Firebrand. Rich deep glowing vermilion of fine form.

Kingfisher. Purplish crimson, very early; petals curved and curled in an elegant irregular manner.

Mrs. Dickson. A fine rosy carmine passing to yellow at base of petals; a beautifully formed flower.

Mr. Moore. Deep claret, one of the best dark varieties.

Queen Wilhelmina. Deep garnet, shading lighter at base of petals.

Sparkler. Rich glowing carmine, early and free.

Strong field roots, 20 cents each; the set of 8 for \$1.50; \$15.00 per 100.

Twelve Fine Cactus Dahlias.

(Introductions of 1900.)

Aegir. An entirely new and distinct form of Cactus Dahlias; the petals are tubular or quilled, twisted and arranged in most fantastic yet regular form; color rich, warm cardinal scarlet.

Austin Cannell. Color light crimson-rose, shading lighter towards the edges; long, narrow, twisted tubular petals.

Chas. Woodbridge. A magnificent light crimson, shaded purple.

Earl of Pembroke. Bright plum color, deeper towards the centre; petals long, pointed, and regularly arranged.

F. Bartels. Bright scarlet; when first opening shows a pretty violet shade.

George Marlow. Primrose-yellow, shaded amber.

Hohenzollern. A rich, bronzy orange-red color with golden sheen; fine.

Lady Penzance. Pure yellow, with long twisted petals.

Loreley. Soft La France pink, shading lighter towards the centre, which is a creamy white.

Miss Webster. Pure white, without a tinge of color excepting on the reverse of the lower petals, which are slightly tinted with rose.

Mrs. A. Beck. A rich salmon red with scarlet reflex.

Strahlen Krone (Rayed Crown). Intense cardinal red, rich and glowing, with long, curiously-twisted petals; in our judgment one of the handsomest and most perfect.

Strong field roots, \$1.00 per dozen; \$8.00 per 100; the set of 12 varieties for \$1.00.

For SINGLE DAHLIAS see next page.

Grand New Single Dahlia "Twentieth Century."

A most distinct single Dahlia, and a variety that will prove especially valuable for cutting; the flowers are of largest size, 6 to 7 inches across, of perfect form, while the plant is a strong grower, of free branching habit, bearing its flowers freely on long stout stems. The color is pure white, overlaid with a beautiful soft pink; not variegated, but a blending of colors, reminding one of the delicate tracings of some of the Orchids.

All the cut blooms procurable of this handsome single were sold readily in Philadelphia last year at \$4.00 per 100.

Strong green plants, ready in April, 75 cents each; \$7.50 per dozen.

Ten Superb Single Dahlias.

Ami Barillet. Brilliant garnet; a handsome, perfect flower.

Evelyn. A delicate, soft pink.

Fashion. Crimson maroon, flamed purple.

John Downie. Cardinal scarlet.

Kate. Intense crimson maroon.

Lehrer Carl Sachs. Bright rosy lavender, with white disc.

Paragon. Black maroon, edged purple.

Polly Eccels. Satin fawn, with red disc around centre; very distinct.

Snow Queen. A good creamy white.

St. George. Best single yellow ever introduced; fine for cutting.

Strong field roots, \$1.00 per dozen; \$8.00 per 100; set of 10 for 85 cents.

Mixed Dahlias.

We have a large stock of Dahlias which have accidentally become mixed, consisting of the very best named varieties.

50 cents per dozen; \$4.00 per 100; \$35.00 per 1000.

All the Dahlias we offer, with the exception of "Twentieth Century" and Storm King, are strong field roots; we will supply one each of the entire collection—106 varieties in all—a superb collection, for \$11.50.

Dieffenbachias.

Handsome decorative plants, with bold ornamental foliage, useful for the warm conservatory.

Baraquiniana. Leaves bright, light green, irregularly spotted with white, midrib and stems shining clear ivory-white. 50 cents each.

Bausei. Leaves yellowish green, margined and irregularly blotched with dark green, and profusely spotted with white. 50 cents each.

Dracæna Terminalis.

A large stock in 2-inch pots, ready in May. \$1.00 per dozen; \$8.00 per 100.

Dracæna Godseffiana.

Undoubtedly one of the most striking and of entirely different habit and appearance from all other Dracænas. It is of free-branching habit, and throws out many suckers from the base so as to form beautiful, compact, graceful specimens in a very short time. Foliage of a strong leathery texture, rich dark green color, densely marked with irregular dots and spots of a creamy white, not unlike an Aucuba Japonica. It is a plant which should be grown extensively for decorative purposes, as it is very hardy as a house plant, equaling, if not surpassing in this respect, the Aspidistra and Ficus.

Gerbera Jamesoni

The Transvaal or Barberton Daisy.

See colored illustration on back cover of our retail catalogue, which gives a fair idea of the beauty and grace of this charming flower, which is now offered for the first time. The plant is of South African origin and though introduced into Europe about fifteen years since, its method of propagation was so little understood that until quite recently it was difficult to obtain even single plants at high prices. We have now been successful in securing a large stock, and believing it to be the most important and valuable novelty of the year, we have given it a place in colors on our catalogue cover.

It is of the easiest possible culture, succeeding admirably and flowering continuously throughout the Summer when planted in an open sunny border in the garden; in fact it is rarely ever out of bloom, and if placed in a sunny position in the greenhouse during the Winter, such in which Carnations flower freely, it will continue to bloom the year around.

The plant is of strong, vigorous growth, forming a dense tuft of leaves from 10 to 12 inches long, from the crown of which it sends up in constant succession 12 to 18-inch high stout stems, which are terminated with single daisy-like flowers, fully 4 inches across, and varying in color in different plants, as well as at different seasons of the year, from bright orange-red and scarlet to deep vermilion; a rich glowing and, at the same time, entirely new color in this shape of flower; it really being a scarlet Marguerite.

At the Exhibition of the New York Horticultural Society, held in May, 1901, it was awarded the first prize as the most important new plant shown, and we take much pleasure in offering and recommending it. The plant has been under cultivation in our trial grounds for the past five years; many have seen it, and everyone has been charmed by its novel and striking beauty and grace. 35 cents each; \$35.00 per 100.

DO YOU USE BULBS?

If so, we would be glad to have an opportunity to quote on your requirements. We handle in season a full line of Roman and Dutch Hyacinths, Tulips, Narcissus, Lilium Harrisii, Lilium longiflorum, Lilium candidum, Freesias, and all the best forcing stock.

DREER'S CHOICE FERNS—Varieties of Special Merit.

Adiantum Charlottæ.

Entirely distinct from all other varieties, and even more graceful than *A. gracillimum*, and possessing the advantage of having much stouter, stiffer stems, on account of which it forms more shapely plants, and increases its value for cutting purposes.

3-inch pots, \$1.50 per doz.; \$10.00 per 100.

Adiantum Caudatum and Adiantum Dolabriforme.

Two pretty species especially adapted for baskets. They are of a peculiar creeping or drooping habit, with long fronds, at the ends of which young plants are produced.

3-inch pots, \$1.00 per doz.; \$8.00 per 100.

Adiantum Bensoniana.

A most beautiful Maidenhair, with large fronds and deep green pinnæ, which, while closely overlapping, is not so dense as to make the frond appear crowded. It makes a handsome specimen plant, and is a distinct addition to our long list of *Adiantums*.

4-inch pots, 50 cts. each.

Adiantum Rhodophyllum.

This variety is always scarce, and while it does not compare with *Farleyense* in a large specimen, in a small plant it resembles it very much, and has the advantage of succeeding under ordinary cultivation.

4-inch pots, \$1.50 per dozen; \$12.00 per 100.

Alsophila Australis.

We have again this season a fine supply of this useful, quick-growing Australian Tree Fern, and offer strong

2¼-inch pots, \$1.00 per dozen; \$8.00 per 100.
3 " " 1.25 " 10.00 "

Asplenium Nidus Avis Multilobatum.

A distinct new variety of the Bird's Nest Fern, with which it is identical in every way, except that the edges of the fronds are deeply lobed or toothed in irregular segments; a variety that is worthy of a place in every collection.

4-inch pots, \$1.00 each.

Cibotium Schiedei.

This is undoubtedly the finest of all Tree Ferns in use for decorative purposes, and, though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators throughout the country, succeeding admirably as a house plant, which is not the case with any other Tree Fern. It possesses a graceful and delicate appearance that is found in no other plant. It is a variety that is always scarce and difficult to obtain. We have succeeded in growing a fine lot of this variety, and offer beautiful decorative plants of it.

5-inch pots, \$1.00 each.

7 " 1.50 "

JAPANESE FERN BALLS.

Japanese Fern Balls.

We offer a fine lot of 7 to 9-inch dormant balls of the true long-leaved variety. \$3.50 per doz.; \$25.00 per 100.

Nephrolepis Wittboldii.

We offer strong plants of this new *Nephrolepis* in 4-inch pots, 15 cts. each; \$1.50 per doz.

Microlepia Hirta Cristata.

We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is of such a delicate, graceful appearance that would lead one to think that it was useless as a house fern, it is nevertheless one of the best for this purpose, and when well grown meets with as ready sale as the popular Boston Fern. It is seldom that we are in a position to offer it in quantity; this season our stock is exceptionally large, which enables us to offer it at the following low prices:

DOUBLE IVY-LEAVED GERANIUM, LEOPARD.

Two Choice New Ivy-leaved Geraniums.

Leopard. The most distinct and novel Ivy Geranium yet introduced; the ground color is a clear lilac pink, with heavy carmine blotches over the upper petals; the markings are so unique that it may aptly be described as a Lady Washington Ivy Leaf.

Achievement. A cross between Souv. de Chas. Turner and a pure white single zonale, with large semi-double flowers of a distinct shade of salmon pink.
20 cents each; \$2.00 per dozen; \$15.00 per 100.

Six Grand New Double Geraniums for 1902.

Bertha de Presilly. A magnificent fresh lively shade of pink; large flowers and truss. 50 cents each.

Carpeaux. Large semi-double flowers; flesh white, heavily spotted with dark carmine spots. 50 cents each.

David d'Angers. Bright fresh pink, with large white blotch on upper petals; heavily dotted with deep carmine points. 50 cents each.

Eugene de la Croix. The most brilliant scarlet, with enormous double flowers. 50 cents each.

Roty. Magnificent china-pink; one of the best of its color. 35 cents each.

Rosamond. Pure deep rose, with distinct white eye, heavily dotted with carmine. 50 cents each.

The set of six varieties, \$2.00.

Six Grand New Single Geraniums for 1902.

Baudelaire. Clear rose, with large white centre; heavily dotted with bright crimson points. 35 cents each.

Honore de Balzac. White, slightly tinged with flesh, with clear salmon centre. 50 cents each.

Mary Hamilton. Rich crimson scarlet, with white eye; of immense size and perfect form. 35 cents each.

Mary Seton. Bright vermilion scarlet, with large white blotch in upper petals. 35 cents each.

Mary Stuart. Soft rose red, deepening to a richer tint on the upper petals; fine large flower. 35 cents each.

Theophile Gautier. Brilliant carmine, with distinct white blotch in upper petals; heavily punctuated with deep carmine. 35 cents each.

The set of six varieties for \$2.00.

Six New Single Geraniums of 1901.

Andrew Lang. Glowing scarlet, with pure white blotch on the upper petals, the centre of the flower being surrounded by a distinct aureole of a rich carmine tint; a bright and brilliant flower. 10 cents each.

Barbara Hope. Pale, beautiful salmon pink, with white eye, shading to nearly white at edge of petal; a very large, perfect flower. 15 cents each.

George Sand. Clear white, at times tinged with soft flesh pink, distinctly punctuated with brilliant carmine dots; very chaste and distinct. 15 cents each.

Jean Aicaud. Rich crimson purple, with glowing blotch at base of upper petals; immense truss and very free; 15 cents each.

Lilian Duff. A magnificent crimson, the individual pips often measuring 3 inches in diameter; 25 cents each.

Mrs. Williams. Immense bloom, 3 inches in diameter; clear rose pink, with white blotch at base of upper petals; 15 cents each.

The set of 6 varieties for 75 cents.

Six New Double Geraniums of 1901.

Champs de Neige. The finest double white yet sent out. 15 cents each.

La Soliel. Brilliant scarlet; very intense and glowing; a profuse bloomer. 15 cents each.

Marie Fournier. Pure deep pink, with distinct white centre, occasionally striped and spotted with white. 10 cents each.

Mme. Philip Labrie. Pure deep pink and always in bloom. 10 cents each.

Picotee. Pure white, with distinct narrow picotee edge of clear rosy pink. 15 cents each.

Roi de Siam. Brilliant scarlet, with large white blotch in centre of petal; the brightest flowered of all the double aureoles. 15 cents each.

The set of 6 varieties for 75 cents.

New Variegated Geranium Silver-leaved Nutt.

Identical with the favorite double crimson bedder S. A. Nutt except in foliage, which is variegated with silvery white in the same way as the popular bedder Mme. Sallerol. 50 cents each; \$5.00 per dozen.

MARANTA LIETZEI.

New Giant Montbretia "Germania."

This new Montbretia has been under our observation for the past five years, when it first originated, and we can fully endorse the originator's description, which follows herewith:

"This splendid acquisition is the result of a cross between *Crocsmia aurea imperialis* and some varieties of Montbretia. Having inherited the vigorous growth of the *Crocsmias*, it, however, produces no offsets which characterize the *Crocsmias*, but possesses the dwarf and bushy growth of Montbretia *Etoile de Feu*.

"It grows about 3½ feet high, is of sturdy habit, much branched, and produces most graceful spikes in the greatest profusion. They are well furnished with large six-petalled, widely expanded flowers, measuring over 3 inches across, probably the largest of the genus. The color is a rich glowing scarlet, shading to brilliant orange, with a blood-red throat. The buds and also the reverse of the petals are blood-red, a most striking combination of colors, making a grand effect."

Nothing can excel the great display this novelty produces when planted in masses, while as a summer cut-flower it is invaluable.

Dreer's Double Petunias.

Our strain of Double Petunias is too well known to require special description. For many years this has been one of the specialties of our establishment, and again this season we have grown many thousands of seedlings from which our collection has been selected, embracing only such distinct fringed varieties and colors that are especially suited to the retail trade.

We offer 15 distinct varieties in strong plants from 3-inch pots, \$1.00 per doz.; \$8.00 per 100; set of 15 varieties for \$1.25.

Seed, 75 cts. per 500 seeds; \$1.50 per 1000 seeds.

Pennisetum.

Rueppelianum (*Purple Fountain Grass*). A beautiful annual ornamental grass, growing about 2½ feet high, producing long, graceful purplish plumes; the only really effective plant to border a bed of Cannas or Hardy Ornamental Grasses. 2¼-inch pots (ready May 1st) 75 cts. per dozen; \$5.00 per 100.

Pentas.

Lanceolata. An invaluable plant for the retail florist who uses his own cut flowers, either as a summer flowering plant in the open ground or planted on benches under similar conditions under which Bouvardias are grown. The plant is in flower the year round, and produces flat corymbs of pure white Bouvardia-like flowers, which will be found most useful either as a loose-cut flower or in made-up work. 2¼-inch pots, 75 cents per dozen; \$6.00 per 100.

PALMS Our Leading Specialty.

Special Notice.

Our measurements of plants, where given, as in the case of Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

LATANIA BORBONICA.

NEW ROSES

New Tea Rose, "Ivory."

(White Golden Gate.)

A most important addition to our list of Roses for cut flower purposes. It is a sport from Golden Gate, which to-day is probably the freest-flowering Rose of its type in cultivation, but which unfortunately lacks in decided color, on which account it has never met with much popularity. The variety now offered embodies all of the good points of its parent, size, freedom of bloom, strong, vigorous, healthy growth, and a pure white color, which makes it an invaluable acquisition, and a Rose which must at once meet with popular favor. It has been shown during the past season at the principal exhibitions, at all of which it was awarded high honors.

We do not hesitate to predict a great future for this Rose, especially as it is of comparatively easy culture.

We offer for delivery April 1st, very strong 2½-inch pot plants which are guaranteed pure and true.

\$2.50 per dozen; \$4.00 per 25; \$15.00 per 100; \$125.00 per 1000.

50 plants supplied at 100 rates; 250 plants at 1000 rates.

New Hybrid Tea Rose, Balduin or Helen Gould.

An excellent bedding variety, with large full flowers of fine form, of bright glowing carmine; the bud is long and pointed and as sweet as a June Rose; a free and continuous bloomer.

2¼-inch pots, 75 cents per dozen; \$6.00 per 100.

Tea Rose, Sunrise.

In close bud form Sunrise shows the high, brilliant colors, seen only in the "Austrian-Copper," scarlet and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow to orange and copper, the inside of the petal, golden yellow. The open rose is large, perfectly double and of grand form. The foliage is glossy and thick, the new growths being the darkest and most beautiful found among roses. The form and color of bud, its freedom of growth and bloom, will give Sunrise a high place among forcing roses.

2¼-inch pots, 75 cents per dozen; \$6.00 per 100.

ROSE, GRUSS AN TEPLITZ.

New Bedding Rose, Gruss an Teplitz or Crimson Hermosa.

This, the reddest of all red Roses, is faithfully shown in colors on the front cover of our retail catalogue, and is, to the amateur who has no greenhouse and depends on his garden for flowers, one of the most important varieties yet introduced. It is a rose for everybody, succeeding under the most ordinary conditions, and is destined to take rank with such old-time favorites as Hermosa, Malmaison, Souper, etc. In color it is of the richest scarlet imaginable, shading to a velvety crimson as the flowers mature; in size it is larger than Hermosa, very fragrant, a free, strong grower, quite hardy, and the most profuse bloomer known to us, the mass of color produced being truly phenomenal. The foliage is extremely beautiful, all the younger growth being of a bronzy plum color.

We offer a large stock of dormant plants. 3-inch pots, on own roots, \$1.00 per dozen; \$8.00 per 100. 4-inch pots, on own roots, \$2.00 per dozen; \$15.00 per 100.

Strong 2-year-old imported budded plants, 30 cents each, \$3.00 per dozen. Extra strong 2-year-old imported budded plants, 40 cents each; \$4.00 per dozen.

New Hardy Rose, Soleil D'Or.

This is the first of a new race of Roses, styled "Pernetiana." It is a cross between the Persian Yellow and the Hybrid Perpetual Antoine Ducher. It retains considerable of the character of Persian Yellow, the bark of the wood being reddish, the thorns very fine; the foliage more ample, of a beautiful green and close together. Like Persian Yellow this variety is perfectly hardy, with large, full, globular flowers varying in color from gold and orange to reddish gold, shaded with nasturtium red. We offer large imported plants at 40 cents each; \$4.50 per dozen.

CLOTHILDE SOUPERT.

Strong Two-Year-Old ROSES.

HARDY ROSE, MAGNA CHARTA.

THE Roses offered below are strong plants which have been potted up during the winter into 5 and 6-inch pots, and kept in cold houses or cold frames. Varieties marked * are plants on their own roots, those not marked are dwarf budded plants worked on Manetti.

Prices quoted hold good until April 10th, after which date they will be advanced \$5.00 per 100.

HARDY PERENNIAL PLANTS

The growing demand for hardy perennial plants has induced us to greatly increase our stock of these, and for some time past we have made this branch a special department of our business, and can now supply all the leading varieties in large quantities.

For full descriptions and illustrations see our retail catalogue for 1902.

ACTÆA JAPONICA.

Actæa. (Baneberry.)

Japonica. A Japanese introduction producing dense spikes of pure white flowers not unlike our native Baneberry, but while our native species flowers during June, the Japanese form does not come into bloom until September and lasts well through October, a time when all kinds of flowers are scarce in the garden; its graceful 30-inch high spikes are fine for cutting and last in perfection a long time when placed in water. 35 cents each; \$3.50 per doz.

AQUILEGIA.

BOCCONIA CORDATA.

Hardy Asters. (Michaelmas Daisies.)

The hardy Asters are among the showiest of our late fall-flowering plants and give a wealth of bloom at a season when other flowers in the hardy border are generally wanting.

Amellus Elegans. Large, light blue.

“ **Hybridus.** Lilac rose.

Amethystinus. Rich, amethyst-blue flowers.

Grandiflorus. The finest of all, and distinct in character, and flower from all others. The flowers frequently measure 2 inches in diameter, are of a lovely violet blue. It is the latest flowering variety in cultivation, and by lifting the plants can be flowered in connection with Chrysanthemums, where its effect is very beautiful. 2¼-inch pots, \$2.00 per dozen; \$15.00 per 100.

Mrs. F. W. Rayner. A distinct new variety of a light purplish-crimson color. The flowers are fully 2 inches in diameter, and are produced very freely during September and October, on plants 3½ feet high. The brightest variety yet introduced. 20 cents each; \$2.00 per dozen.

Arabis. (Rock Cress.)

Alpina flora plena. (New Double-Flowering Rock Cress.) A double flowering form of *Arabis Alpina*, one of the most desirable of our very early spring flowering plants. It is of a creeping habit, suitable either for the rockery or border, and produces long racemes of pure white double flowers. 75 cents per dozen; \$6.00 per 100.

HARDY PERENNIALS

are now exceedingly popular. Every florist should keep a stock of the more important varieties; a good idea is to make a perennial border on your own place and show people what can be done with them.

IRIS GERMANICA (GERMAN IRIS).

Iris Kæmpferi. (Japanese Iris.)

These magnificent Iris are among the most beautiful of our summer flowering plants, and are destined to become more popular every season. They commence blooming about the middle of June, and continue in flower for five or six weeks. Many of these flowers measure from 10 to 12 inches in diameter, and rival the orchids in their rich colorings and markings. We offer 25 distinct varieties, which were selected while in flower from over 75 of the best Japanese introductions. For names and descriptions see our Retail Catalogue.

15 cents each; \$1.50 per dozen; \$10.00 per 100; set of 25 varieties for \$3.00. Choice mixed varieties, \$1.00 per dozen; \$8.00 per 100.

PERENNIAL PHLOX.

Perennial Phloxes.

ONE OF OUR LEADING SPECIALTIES.

Over 50,000 Plants in Stock.

Our collection of Phloxes has been carefully selected from a number of European collections, and embraces only the best and most distinct varieties.

The plants we offer are close divided stock with from 3 to 6 eyes, which however is much superior to young newly propagated plants; they will make good plants and produce a fine show of flowers this summer.

Primula Cortusoides Sieboldi.

These are not so well known as they deserve; they are of free, vigorous growth, with dark green foliage, and throw up during late spring innumerable stems of large flowers, varying in color from pure white to rich crimson. All of the varieties offered can be flowered in pots in early spring, and respond quickly when placed in a temperature of 50 degrees, forming pretty pot plants in a short time.

- Loreley.** Beautiful salmon rose, with white eye.
Queen of Whites. Fine large pure white.
Sirius. Rich crimson rose; with white eye.
Price, \$1.25 per doz.; \$10.00 per 100.

PRIMULA VERIS SUPERBA.

Primula Veris Superba.

(New Giant Hardy Primrose.)

This plant originated a few years since in a batch of seedling Polyanthus, and apparently is a hybrid Primrose, having somewhat the growth of a Polyanthus combined with the yellow color and fragrance of the English Primrose.

In size of flower, it is fully three times as large as any hardy Primrose known to us, the average size of the flower being over one inch, and we have seen them frequently measuring over 2 inches, with trusses of bloom 6 inches in diameter. It is perfectly hardy, grows from 10 to 12 inches high, and begins to flower earlier and continues in bloom longer than any other plant of the same family known to us. This alone is sufficient to insure its popularity as a plant for the garden; but its greatest merit consists in the fact that it is not only one of the easiest plants we know of to force, but a plant that will sell on sight when brought into flower during the winter and early spring months, and especially so when grown as an Easter plant.

The plants can be stored in cold frames, successive batches being brought into a cool greenhouse to flower as required, allowing about four to five weeks' time to bring them into full bloom.
\$1.25 per dozen; \$10.00 per 100.

Hardy Blue Primrose.

(Primula Acaulis Cœrulea.)

This plant attracted much attention the past season on account of its rich gentian-blue flowers, which have a golden-yellow star-shaped centre, a rich combination of purple and gold. It is perfectly hardy and will please every lover of this class of plants. 20 cents each; \$2.00 per dozen.

CHOICE HARDY SHRUBS

AZALEA MOLLIS.

Azalea Mollis.

This hardy Azalea is used extensively in all European cities for early forcing, and are great favorites on account of their varied and brilliant coloring.

We offer a fine lot of very bushy plants, 12 to 15 inches high, well covered with buds, at 50 cents each; \$4.50 per dozen; \$35.00 per 100.

Azalea Pontica (*Hardy Ghent*). Strong bushy plants, 15 inches high, \$4.50 per dozen; \$35.00 per 100.

Bigelovia Graveolens. (Golden Feather.)

A vigorous growing, hardy shrub of neat, compact habit, with narrowly linear leaves of a silvery gray color, which give the plant a light, graceful appearance. The great beauty of the plant, however, is in the flowers, which are borne in great golden plumes at the end of every branch. The individual heads are not large, but are quite long, and every part of the flower, as well as the involucre, are of the same deep golden yellow. The bright yellow buds appear late in summer, and the fragrant flowers do not fade until severe frost.

3-inch pots, 15 cents each; \$1.50 per dozen.

Deutzia Gracilis.

A fine lot of strong two-year-old plants, 75 cents per dozen; \$6.00 per 100; \$50.00 per 1000.

Strong one-year-old plants, 60 cents per dozen; \$4.00 per 100; \$35.00 per 1000.

Deutzia Gracilis Rosea. (New.)

Identical with the above in general habit, but with flowers fully double the size of that graceful variety, to which is added the additional charm of being suffused with a delicate rosy tint, just sufficient to relieve the dead white which is objectionable in the type, and which will undoubtedly place it in the front rank of shrubs for winter forcing.

Strong two-year-old plants, \$1.25 per dozen; \$10.00 per 100.

Strong one-year-old plants, 75 cents per dozen; \$6.00 per 100.

Deutzia Lemoinei.

This is now one of the standard varieties for forcing. It surpasses *D. Gracilis* in its very large flowers, being nearly three times the size of the latter variety. These are produced in large, cone-shaped heads of 20 to 30 flowers each, and of the purest white. We are carrying the largest stock of these in the country, and offer strong two-year-old plants, \$1.00 per dozen; \$8.00 per 100; \$75.00 per 1000. Strong one-year-old plants, 60 cents per dozen; \$4.50 per 100; \$40.00 per 1000.

Deutzia Gracilis Venusta.

A handsome white variety of dwarf branching habit, producing elongated, cone-shaped panicles of pure white flowers of large size, the individual flowers reminding one of a single azalea in miniature.

Strong two-year plants, \$1.00 per dozen; \$8.00 per 100.

Strong one-year plants, 75 cents per dozen; \$6.00 per 100.

Japanese Maples. (*Acer Polymorphum*.)

Select Japanese Tree Pæonies.

Twelve select named varieties in strong plants, 50 cents each; \$5.00 per dozen; \$40.00 per 100.

Hydrangea Paniculata Grandiflora.

We offer a grand stock of this most popular of all Hardy Shrubs, extra strong, heavy, bushy plants, 18 to 24 inches high, \$1.25 per dozen; \$10.00 per 100.

Standard or Tree-shaped. Fine plants \$4.00 per doz.; \$30.00 per 100.

Hardy Rhododendrons for Out-Door Planting.

The varieties we offer are all of the hardiest kinds, such as from experience are known to succeed in our climate.

All the plants are well set with buds, and in first-class condition in every way.

Bushy plants 15 inches high, per dozen, \$7.50; per 100, \$60.00

Viburnum Plicatum.

A fine lot of bushy plants, 24 to 30 inches high, \$2.25 per dozen; \$18.00 per 100.

Weigelia Coquette.

Entirely distinct and new in color; flowers of a delicate blush and of much larger size than in any other variety. Blooms continuously from early in summer until late in fall. A most desirable addition to our list of summer and fall flowering shrubs.

Strong one-year-old plants, 30 cents each; \$3.00 per dozen.

HARDY VINES AND CLIMBERS

TYPE OF LARGE-FLOWERING CLEMATIS.

Actinidia Polygama.

Though introduced in 1870 from Japan, this beautiful climber is practically unknown. It is of strong, vigorous growth, with dark-green, shining foliage, and produces white, sweet-scented flowers resembling the Hawthorn; these are followed by bunches of edible berries.

Strong plants, 20 cents each; \$2.50 per dozen.

Akebia Quinata.

We offer a large stock of this climber; strong plants, \$1.50 per dozen; \$12.00 per 100.

Ampelopsis Veitchii.

Strong 2-year-old plants, \$1.25 per dozen; \$10.00 per 100.
Extra selected 2-year-old plants, \$1.50 per doz.; \$12.00 per 100.

Boskoop Seedling. Extra large lavender.

Duchess of Edinburgh. Double pure white.

Fairy Queen. Pale flesh with a pink bar.

Gypsy Queen. One of the finest rich purple varieties.

Henryi. Finest large single white.

Jackmanni. The popular dark, rich, royal purple.

Lilacina Floribunda. Pale blue.

M. Koster. Bright rosy carmine.

Madame Baron Veillard. Light rose, shaded lilac.

Mme. Van Houtte. Pure white; extra fine.

Miss Bateman. White with chocolate-red anthers.

Standishi. Light blue.

The Gem. Deep lavender blue.

The President. Bright bluish purple.

\$3.00 per dozen; \$25.00 per 100.

Jackman's New Hybrid Clematis.

An entirely new and distinct type, the result of crosses between Coccinea and Star of India, both of which succeed well in our climate. They combine all the good points of their parents in hardiness, vigorous growth and freedom of bloom, which together with their entirely distinct coloring and novel shape will make them valuable additions to our list of Hardy Climbers.

Countess of Onslow. A bright violet-purple with a broad band of scarlet down the centre of each petal. It is of open bell-shaped form, with four to six petals to each flower; very useful for decorative purposes, as when cut will keep fresh in water for several days.

Duchess of Albany. A beautiful bright pink, deeper down the center, softening down to lilac pink round the margin; campanulate in shape; useful for cutting.

Duchess of York. A delicate and pleasing shade of pale pink, with a deeper tinge down the center of each petal, of campanulate form, with four to six petals to each bloom; useful for cutting. 50 cents each.

Hardy English Ivies.

An extra fine lot of strong, bushy plants in 4-inch pots, 3 feet high, 3 to 5 shoots. \$1.25 per dozen; \$10.00 per 100.

The Climbing Hydrangea.

(Schizophragma Hydrangeoides.)

This grand climber, though introduced from Japan in 1879, is always scarce and but rarely offered for sale. It is one of the most desirable and interesting of our hardy climbers, and though at first slow in growth, it is of vigorous habit after it once becomes established. Its flowers, which are borne in large trusses, are similar to a white Hydrangea, and when in flower, during July and August, make a handsome display. It is one of the best flowering vines we know of for planting against a tree or wall, as it clings naturally to any rough surface and requires no support or tying.

We offer a limited lot of extra strong plants, established in tubs, 3 to 4 feet high; will produce a quick effect. \$1.50 each.

Humulus Lupulus Aureus.

(Golden Hop Vine.)

A golden leaved variety of the common Hop Vine, possessing the same strong, climbing habit and hardiness, but with light golden yellow foliage. 15 cents each; \$1.50 per dozen.

Lathyrus Latifolius Albus.

(White Perennial Pea.)

A desirable plant of climbing habit, growing about 5 feet high, producing pure white flowers the entire summer; excellent for cutting; strong plants. \$2.00 per dozen; \$15.00 per 100.

Wistaria Sinensis.

Extra strong two-year-old plants.

Blue, \$3.00 per dozen. White, 3.50 per dozen.

Novelties and Specialties in Flower Seeds

On this and next page we give a list of the best of the new things sent out this season, and recommend them for trial.

Giant Antirrhinum "Queen Victoria." This is the finest large-flowering pure white Snapdragon yet offered; flowers unusually large, and borne on long and graceful stalks; splendid for cutting. 10 cents per packet.

Ageratum Dwarf Princess Pauline. A beautiful variety, of dwarf, even growth, rarely exceeding 8 inches in height; the flowers are sky-blue, with a white centre, the contrast being really exquisite. 10 cents per packet.

Aquilegia Helenæ. This new hybrid Columbine is a cross between *A. flabelata* and *A. Cærulea*, and is of strong, robust growth, attaining a height of 15 to 20 inches and bearing numerous flowers similar in color to *A. glandulosa*; a lovely shade of blue and pure white; hardy perennial. 17 cents per packet.

Arctotis Grandis. A remarkably handsome annual which forms much-branched bushes 2 to 3 feet high. Its flowers, borne on long stems, are large and showy; the ray florets pure white on the upper surface, embellished with a narrow yellow zone at their base; the reverse of petals pale lilac-blue; the disc is light blue with slightly projecting white stamens; altogether a lovely flower. 10 cents per packet.

DAHLIA, COLLERETTE.

Frilled Tuberous Begonia. This strain by careful selection has been wonderfully improved, until it is now unquestionably the finest of the tuberous-rooted section. The flowers are of large size, from 4 to 6 inches in diameter, with beautifully frilled and waxy petals, not unlike the finest single Petunias. 17 cents per packet.

Begonia Semperflorens Hybrida Fl. Pl. The plants are of robust, compact growth, and produce their exquisite double flowers in the greatest profusion; they vary in color from pure white to dark red; splendid as a summer bedding plant or pot plant. 17 cents per packet.

Capsicum Nigrum. A charming decorative Pepper, growing about 12 to 16 inches high, and literally covered by deep black brilliant fruits, resembling those of the sloe. 10 cents per packet.

Celosia Thompsoni Magnifica. The plants of this novelty have a true pyramidal branching growth; the flower spikes vary in the most magnificent shades of color, ranging from the clearest yellow to the darkest blood-red. 10 cents per packet.

Celosia Spicata. A handsome annual, forming upright, well-branched pyramids about 2½ feet in height, and producing at the summit of each branch spikes of flowers of a bright rose color when opening, changing to silvery white. 10 cents per packet.

Giant Cyclamen, Salmon Color. An entirely new color in this favorite plant. The introducer, one of the foremost hybridizers of Europe, claims that it comes quite true from seed, and even if it only reproduced itself 50 per cent. true it would still be one of the most important novelties of the season. 34 cents per packet of 20 seeds.

Dahlia "Collerette." This new type of Single Dahlia has produced a great sensation throughout Europe, and has been awarded high honors wherever exhibited. The peculiarity of the type lies in their having a row of short petals around the disc like a frill or collar, and which are of a different color to the rest of the flower (the arrangement is well shown in the illustration), producing many striking effects. The seed we offer is in mixture, and may be expected to produce a variety of color combinations. 20 cents per packet.

Helianthus Cucumerifolius Albus Fl. Pl. The miniature Sunflowers are now indispensable for cut flowers, and we feel sure that this new double white sort will meet with a good reception. In habit of growth and profusion of flowers it is identical to the well-known single variety. 17 cents per packet.

PETUNIA, HOWARD'S STAR.

PRIMULA, OBCONICA FIMBRIATA CARMINE.

Mignonette Goliath. Of compact, dwarf habit, rich green foliage and spikes of immense size; well colored and highly scented. Trade packet, 25 cents; oz., \$1.00.

Mignonette Defiance. When grown under favorable conditions, spikes will not only be of remarkable size—from 12 to 15 inches long—but deliciously fragrant. The individual florets are of immense size, forming a graceful as well as compact spike. Of extraordinary keeping qualities, retaining their grace and fragrance until every bud opens. Trade packet, 15 cents; oz., 50 cents.

Nasturtium Ivy-leaved. Undoubtedly one of the finest climbing Nasturtiums ever introduced, and is worth growing if only for the effect of its dark-blue-green, ivy-like foliage; but added to this it bears freely, deep blood-red fringed blossoms, which are extremely effective against the dark colored foliage. 25 cents per oz.

Pentstemon Pulchellus Hybridus. A new hybrid of this beautiful perennial, a cross between *P. gentianoides* and *P. pulchellus*, which should be treated as an annual; sown in early spring and planted out in May, the plants grow to a height of 2 to 3 feet, forming pyramidal bushes, with erect branches thickly set with flowers, 1½ inches long, varying in all shades from rosy-white and chamois to purple and violet, with pure white or veined throats; in full bloom from July until frost. 10 cents per packet.

Petunia Howard's Star. The introducers of this beautiful selection of medium-flowering multiflora Petunias describe them as follows:

Their ground color is a dark crimson maroon, with a rich velvety texture, justly pronounced equal to that of Pansy. From the centre starts the points of a five-rayed star. This star is a very light bluish-pink, some almost white, which deepens in color as it reaches the margin, and finally blends with the maroon ground color. Over 80 per cent. of the plants from seed will produce the star markings. Others with veined and feathery markings on dark or light ground are not less suprisingly beautiful. The plants are free growers, branching freely and attaining an average height of 18 by 24 inches in diameter. They are remarkably prolific bloomers, single plants often having one hundred or more fully expanded flowers at a time.

We have seen flowers of this strain, and can fully endorse the above description. Full size pkts. (containing not less than 150 seeds), 25 cts.; 5 packets for \$1.00, or 12 packets for \$2.00.

Dreer's Superb Fringed Petunias. We have long been celebrated for our unrivaled collection of Petunias, which we endeavor to improve each year by careful selection and hybridization. The seed of the doubles which we offer will produce a large percentage of the finest double-fringed varieties.

Dreer's Superb Double-fringed, 500 seeds, 75 cts.; 1000 seeds, \$1.50.
 " " Single " Trade packet, 50 cts.

Primula Obconica Fimbriata Carmine. This new variety is the brightest colored of the type, and should become a favorite at once. 17 cents per packet.

Rudbeckia Bicolor Superba Semiplena. This novelty represents semi-double or nearly double-flowering varieties of the Rudbeckia Bicolor Superba introduced in 1898. The plants form elegant bushes of 2 to 2½ feet in height, covered with large, semi-double, golden-yellow to brownish-yellow flowers, which have a central dark-brown ring and disk. They closely resemble in size and form the double-flowering Zinnias, and make a gorgeous effect in beds or borders, and are very useful for cutting purposes. 10 cents per packet.

Mammoth Verbena "Aurora Borealis." We have for several years endeavored to secure stock of this most valuable variety, but have not succeeded until this year. It is without doubt the finest of all Verbenas. The growth of the plant is stocky and vigorous, with deep green, rough foliage. The flowers are of enormous size, many being over an inch in diameter, and are borne in fine trusses. The color is an intense carmine scarlet, quite distinct, and can be seen at a considerable distance; a really valuable novelty. 17 cents per packet; 3 packets for 50 cents.

RUDBECKIA, BICOLOR SUPERBA SEMIPLENA.

Dreer's RELIABLE Flower Seeds

ON the following pages (42 to 49) we give a list of the most important **Florist's Flower Seeds**, pages 50 and 51 are devoted exclusively to seeds of Climbers, including Sweet Peas, while on pages 52 and 53 are given a list of Seeds of Hardy Perennials; page 54 contains a list of Miscellaneous Flower Seeds.

When less than a trade packet is wanted we will be pleased to furnish retail packets at a discount of $33\frac{1}{3}$ per cent. from retail catalogue prices.

SEMPLÉ'S LATE BRANCHING ASTER.

ASTERS.

We take the greatest care to secure our supply of this most important florists' flower from growers who have made their cultivation a specialty, and feel sure nothing finer in quality can be had.

The following are American grown and have been saved from extra choice strains. They are the most valuable of all Asters for florists' use, coming in late when other flowers are scarce, and are equal in size to the early flowering chrysanthemums.

DREER'S VEGETABLE SEEDS

FOR 1902

We are pleased to offer the following varieties of Choice Vegetable Seeds. The list is made up of many standard varieties, and also includes some new and meritorious sorts. All of our vegetable seeds are saved with great care and are pure and of strong germination. Florists who also grow vegetables for market should have our Market Gardeners' Wholesale Price List, which will be mailed upon receipt of application.

LAWN MOWERS

The Dreer High-Wheel Lawn Mower

The 'Gem
of
Lawn
Mowers.

The best Lawn Mower to buy is the one that runs the easiest, does the best work and is the most durable. All these points of excellence we claim for the "Dreer" Mower. Our High-Wheel is a perfect machine, built strong and with a train of gear, patent stationary blade, allowing the machine to be set within three-eighths of an inch of the ground if desired. It has every improvement, is light running, positive work and self sharpening; has ten-inch drive-wheel. The cylinder has phosphor-bronze bearings, arranged with a steel screw to take up the wear. Each machine is provided with bracket for grass-catcher attachment. They are supplied with four or five blades in the revolving cutter as may be desired.

For those who mow their lawns frequently we advise the five-blade machines, as they leave the lawn in a very smooth condition, although the four-blade machine does admirable work.

The Dreer Low-Wheel Lawn Mower

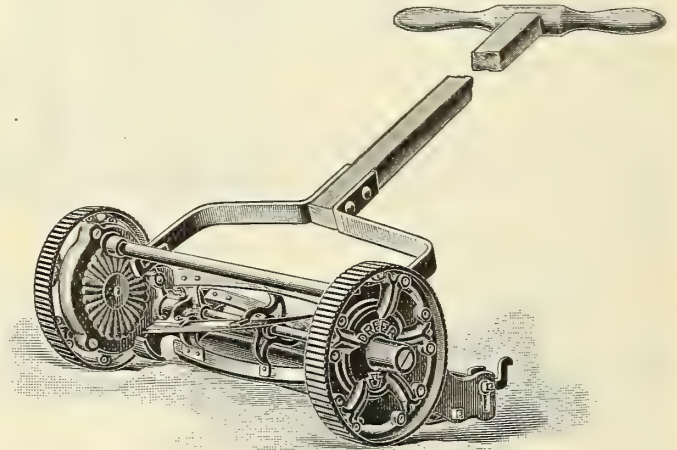

A perfect machine in every way. Built on the same principle as our high-wheel mower. Has four blades in the revolving cutter, the train of gear gives it high speed, all working parts are thoroughly shielded against the accumulation of dirt. The patent stationary blade is so adjusted that the machine will remain set without frequent adjustment. It will cut within $\frac{3}{8}$ of an inch of the ground. The drive wheels are 8 inches in diameter, insuring easy draft.
